Minimise loss.

Streamline your operations with our key management features.

- ✓ Stock management and tracking
- ✓ Know your numbers with intelligent reporting
- ✓ Staff management, clerk security and audit logs

Maximise profit.

Work smarter, understand customer behaviour and increase spend.

- ✓ Customer promotions and loyalty
- ✓ Customer relationship management and favourite transaction
- ✓ Scales, e-commerce and EFTPOS integration

FUEL CONSOLE

Idealpos integrates to Postec, Gilbarco and Transac, accepts discount fuel vouchers from supermarkets and processes all products through a single point of sale system.

GIFT VOUCHERS, COUPONS

Customise gift vouchers with your logo, offer alternative expiry dates with different voucher types, send the vouchers via email or print from your receipt printer and easily configure the details on custom stationery. Email or SMS coupons to be read and redeemed in-store.

STOCK MANAGE APP

Perform a stock-take on all your locations, transfer stock between locations, receive items into stock and assign barcodes to all items.

LAY-BYS

Choose the duration of a lay-by service, require a minimum deposit before the sale can finalise, print terms and conditions on the receipt and select when a lay-by becomes a sale.

CREDIT NOTES, REFUNDS

Issue credit notes with expiry dates for any returned stock, configure refund reasons to track stock issues and control access with clerk permissions.

CLOUD REPORTING

Access your reports online, anywhere, anytime. All you need is a smartphone or tablet with an Internet connection to keep tabs on your daily takings, KPIs and compare your selected period's performance to previous equivalent periods.

Optional extras & more!
